HC website for security scam trials launched

Swati Deshpande | TNN

Mumbai: The Bombay HC on Saturday launched its website for a special court relating to trials of offences relating to the transaction in securities Act of 1992.

Justice V M Kanade said the site, encouraged and inaugurated by Chief Justice Mohit Shah, is meant to serve the public at large. The site, however, comes more than two decades after the special trial court for security scam cases was set up in 1992.

"As of November 30, 2013, Rs 6,300 crore was recovered and Rs 5,688 crore distributed," said Justice Kanade. He also said of the 12,340 cases filed till date, 12,001 had been disposed of. Of the 43 criminal cases, 34 have been disposed of, two are pending in the Supreme Court and seven are here. The special court website gives details of cases and judgments passed.
